Website: <https://softuni.bg/certificates/details/250333/b65235d1>

💼 Work experience

Service Manager

10/03/2018 – 31/08/2025

Gabriel Teamwork Personal Solution GmbH | Vienna, Austria

Managed service operations across hospitality, catering, and event sectors. Coordinated teams, delegated responsibilities, and ensured client requirements were met efficiently. Acted as a key liaison between project management, staff, and customers, contributing to smooth project execution and high service quality.

Software Developer / Technical Contributor

01/06/2024 – Current

KEEP SAKE LTD. | Plovdiv, Bulgaria

Contribute to the development and maintenance of the company's website. Design and prototype internal tools to improve operational workflows. Participate in testing, bug fixing, and deployment activities.

Website: <https://photopoint.bg/>

Software Engineer / Board Member

01/10/2025 – Current

Societas Bulgarica | Vienna, Austria

Lead the development, maintenance, and technical direction of the organization's web platform and digital infrastructure.

Serve as the primary technical contact responsible for website operations, feature development, and long-term platform evolution.

Designed, developed, and deployed a Django-based sports event management platform that automates tournament organization, registration, scheduling, and results management.

📁 Projects

Developer Portfolio

01/09/2025 – Current

You can see more detailed information about my projects on my portfolio website

<https://veselinmar.github.io/>

TournamentManager

01/03/2025 – Current

Built a production-grade web application for football tournaments featuring automated round-robin scheduling, event-sourced live match tracking, and real-time public standings used by 200+ users per event.

Server Monitor

20/02/2026 – 15/03/2026

Built a self-hosted ISP performance monitoring system using FastAPI with layered architecture, automated adaptive cron-based network testing, time-series visualization, and automated PDF complaint report generation, backed by 40+ tests across the full stack.

mom-to-be

10/07/2025 – Current

Delivered a commissioned, client-facing multilingual blog platform with Django (django-parler), featuring a TinyMCE-based CMS, CI/CD auto-deployment pipeline, and an extensible content roadmap including a growing cookbook module.description
